

What is our disaster recovery managed service?

As part of your business disaster recovery and continuity plan, K3 provides a tailored IT disaster recovery service for all systems, applications and data. It supports your business continuity in the event of flood, fire and theft, in addition to cyberattack and system or power loss. More than just back up, our specialists work with your business to strategise and implement a clear, efficient disaster recovery plan which accounts for hardware, user accessibility, site accessibility and any other IT that contributes to operations or customer delivery.

As part of our service, we also regularly and comprehensively test your disaster recovery plan to guarantee that technologies are always fit for purpose and performing.

What are the benefits?

- Peace of mind that all IT infrastructure is protected and managed 24/7 by experts
- Rapid action and recovery using state-of-the-art technology
- Strategic and holistic approach, individually tailored to your business, its goals, specific cyberthreats and operational demands
- Reliable performance due to regular plan and technology testing
- Meet GDPR compliance standards and enhance your own service level agreements

How much does it cost?

Prices vary depending on the contract cover option you choose. All options are available as fixed monthly payment plans with no upfront costs.

Please call us on **0844 579 0800** to discuss your specific requirements.
